PRICING POLICY FOR OUR PRODUCTS

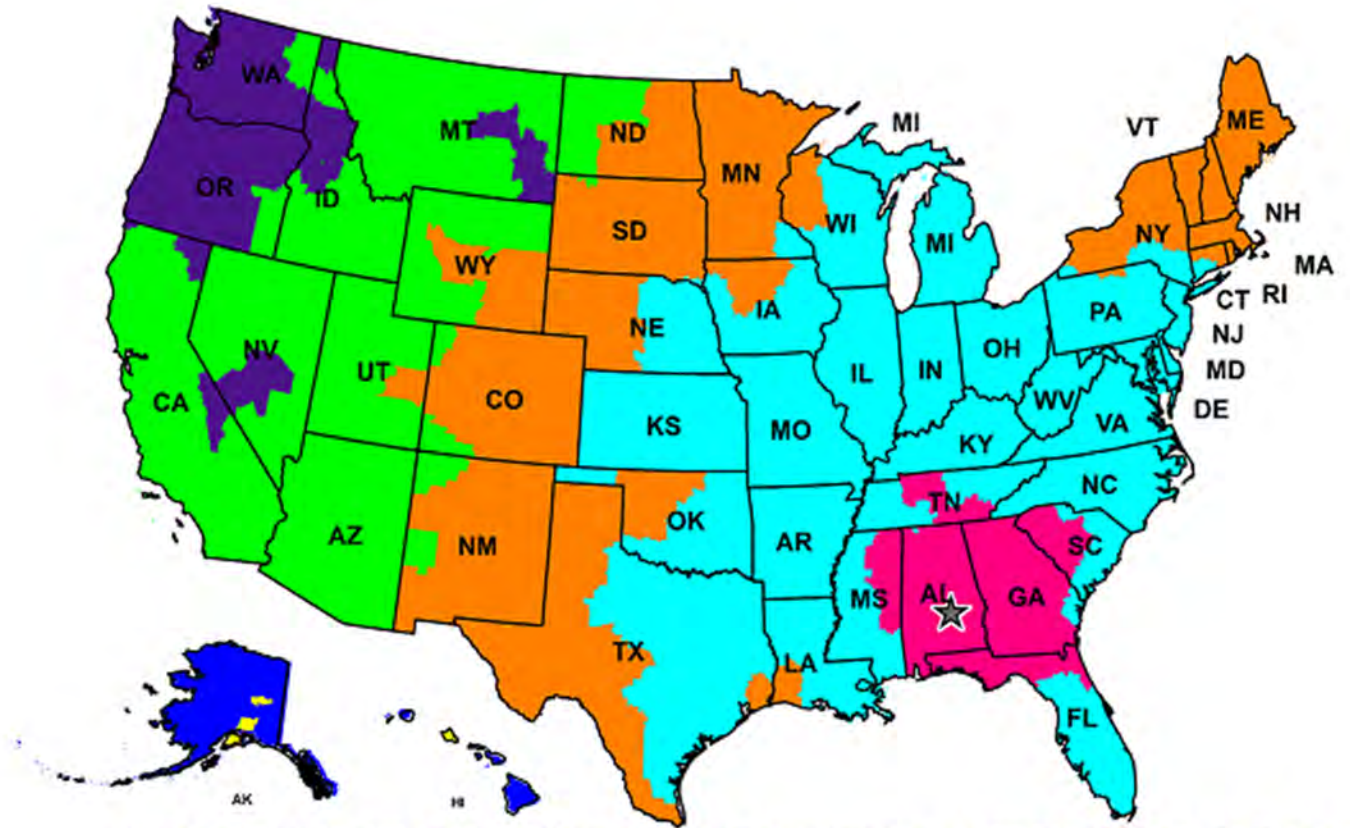

AT A GLANCE, YOU WILL NOTICE THE PRICE OF PRODUCTS ARE OMITTED, AS YOU WILL FIND, AS IN OTHER COMPETITORS APPROACH IN DISPLAYING THERE INVENTORY IN PRINTED CATALOGS. THE LAST 2-3 YEARS HAVE CREATE AN UNPRESCEDENTED INCREASE IN THE COST OF WHOLESALE GOODS AND , IN MANY CASES , MORE THAN ONCE WITHIN A YEAR. IT WOULD BE POINTLESS TO PUBLISH OUR PRICING, WHEN IT IS SUBJECT TO CHANGE ,DUE TO UNEXPECTED SUPPLY CHAIN DISRUPTIONS AND FREIGHT AND FUEL INCREASES. THE PURPOSE OF THIS BOOK IS TO ENLIGHTENED AND INFORM ALL CUSTOMERS AND PROSPECTS OF THE VAST ITEMS WE OFFER AND TO ENCOURAGE YOU TO DO BUSINESS WITH US. AN E-COMMERCE WEB PRESENCE IS FORTH COMING ,BUT NOTHING REPLACES PERSONAL CUSTOMER SERVICE THAT COMES WHEN YOU CALL US TO PLACE YOUR ORDER. THE FACT IS , FEWER OF OUR COMPETITORS BOTHER TO PUBLISH A HARD COPY OF A CATALOG, BUT IT STILL WORKS ! WE ARE NOT THE CHEAPEST BUT WE ARE NOT THE HIGHEST IN PRICING. WE HAVE BEEN IN THE AFTERMARKET UPHOLSTERY WHOLESALE SUPPLY BUSINESS FOR 25 YEARS. WE ARE YOUNG ,COMPARED TO SOME OF OUR COMPETITORS , BUT WE MADE GREAT STRIDES IN OUR PRODUCT OFFERING AND CUSTOMER BASE. WE VALUE ALL OF OUR CUSTOMER RELATIONSHIPS AND LOOK FORWARD TO INTRODUCING MANY OF YOU TO A DEEPER LOOK AT WHO WE ARE AND WHAT WE CAN DO TO SERVE YOU IN THIS INDUSTRY.

CUSTOM FOAM GRADES AVAILABLE IN ANY SIZE

****** CALL WITH DIMENSIONS******

**** 1-800-247-8759 ****

A 30 -1030.....

This is the ideal lowest cost foam for **furniture back cushions ,window seats, occasional seat usage, dog beds ,or crib pads**. Also suitable enough for **wedges**.

B 32 - 1253

This is a lower cost foam for **mattress foam for campers,occasional seating ,or a firmer back cushioning for furniture use with sofa,chair ,or loveseats**.

E 35 - 1836

This is a very commonly used foam for **couch,chair,sofa cushions** and is reasonably priced for a **full mattress or usable as a mattress topper**.Some **churches** use this grade for seating when a slightly thicker than average depth is required.Its an all - round good choice for many projects.

G 53 – 1545

This gets you into firmer grades of foam .Good for **entry level boating or outdoor** and when more support is desired for **couches/sofas, chairs** , compared to E35, for example.

D 72 -1570

This gets you, again, into **firmer feeling ,longer lasting cushioning**.Suitable for **marine,automotive**,and when you need yet firmer support to suit your personal preferences.

G 65 – 2065.....

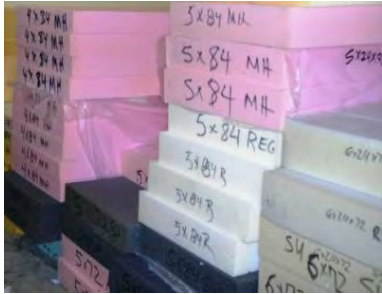

This is taking you into the **level of the firmest of the firm**.Applicable for **boating,automotive,and places where you need serious cushioning**.Also good for **casing, packing, and protection of delicate objects or equipment**.

E 95 –1875

This is the crown jewel of our "Magnificent 7". **Firmer rubber that you get** from us or most anywhere. Used **in automotive ,marine, and packing applications**.Some folks even like this for seat cushioning.

European Leather Hides

Vintage

Our Vintage hides are crafted with an embossed grain to create consistency throughout each hide. These hides are a heavy weight drum-dyed leather which are covered by a pigmented finish. This leather is durable and easy to care for, making it suitable for all applications.

Affinity

Our Affinity hides are developed with a fine grain and protective topcoat. Color consistency from hide to hide is achieved through the aniline dyeing process. Affinity leather is suitable for all applications with its smooth look and luxurious feel.

SEM AEROSOLS

SEM COLOR COAT

COLOR COAT is formulated to match, restore or change color on most vinyl surfaces, flexible and rigid plastics, carpet and velour. Fade resistant and flexible, **COLOR COAT** is not a dye, but a permanent paint coating. Sold by the 12oz. can discounts with 6 can purchase. Call for pricing and a color chart.

WHERE CAN YOU USE SEM COLOR COAT?

SEM CLASSIC COAT

CLASSIC COAT uses advanced technology to provide superior adhesion and flexibility when changing or restoring the color of most leather and vinyl. **CLASSIC COAT** is a fade resistant coating that won't chip or peel and is available in many of today's popular OEM colors. Sold by the 12oz. can discounts with 6 can purchase. Call for pricing and a color chart.

Removed after 8 hours and cleaned with water and Formula 409®

Removed after 8 hours and cleaned with water, Formula 409® and Alcohol (70%)

Care and Cleaning Instructions

In general, most common stains can be cleaned using warm, soapy water and clear water rinses. Moderate scrubbing with a medium bristle brush will help loosen soiling materials from the depressions of embossed surfaces. For more stubborn stains, use Formula 409® commercially available cleaner† in accordance with the manufacturer's instructions.

Full strength rubbing alcohol or mineral spirits†† may be tried cautiously as a last resort on very stubborn stains, if the above suggestions do not work. Indiscriminate use of any solvent, or solvent containing cleaner, can severely damage or discolor vinyl. Always follow with a clear water rinse after cleaning with solvents.

Note: Detergents should never be used on a regular or repeated basis for normal cleaning. Morbern recommends repeated rinsing with clear water after any cleaning procedure.

† When opening a new container, please test the cleaner in an inconspicuous area as cleaning manufacturers may change formula without notice.

Morbern cannot be responsible when unknown changes are made by the manufacturer of the cleaner.

†† Caution: Exercise care as these solvents are flammable. Use only small quantities of solvents and keep clear of any sources of ignition. Wear protective gloves and ensure cleaning takes place in a well ventilated area.

Care & Cleaning

To prevent build up of dirt and contaminants, which may cause permanent staining, periodic cleaning is highly suggested. The frequency of cleaning is dependent upon the environmental conditions the material is subjected to. For normal cleaning: Most stains can be easily cleaned using warm, soapy water and clear water rinses. Moderate scrubbing with a medium bristle brush will help loosen soiling materials from the depressions of embossed surfaces. Disinfecting the vinyl can use 5% Isopropyl Ethanol or Bleach water solution.

The warranty does not cover any labor or installations.

Cleaning Instructions

Sunfield fabrics are subjected to special treatment with a fluorocarbon which gives the following characteristics:

- Resistance to natural build up of dirt.
- Oil and water-repellency for a long time.
- Excellent dimensional stability.

However, it is advisable:

- To remove dust periodically from the dry cover with a soft brush or a vacuum cleaner.
- To wash with clean water at a temperature of not more than 96° F (30° C), when the dirt is persistent.
- To use trichloroethylene blotter or a common dry cleaner for grease stains.
- To never use any other chemical product.
- To avoid the buildup of water bags in the middle of the awning, always keeping the fabric in tension and with an adequate gradient.
- To never roll up the cover when the fabric is wet.

CLEANING INSTRUCTIONS:

Prompt cleaning is always recommended.
 Ordinary dirt and stains can be removed with mild soap and water.
 Rinse the cleaned area with clean water and dry with a lint free cloth.
 Esprit will resist, without serious discoloration, the repeated actions of normal dilutions of non-abrasive chlorine or ammonia-based cleaners.

Resilience^{SR} represents the latest technology in Faux Leather and Vinyl Protection, enhancing performance where it is needed the most:

Stain Resistance: With proper care, materials treated with Resilience^{SR} can be easily cleaned and will guard against stains maintaining the desired surface appearance for years to come.

Anti-Microbial & Anti-Bacterial Protection: Products treated with Resilience^{SR} are engineered to inhibit bacterial growth, as well as fungus, mold and mildew spores, resulting in a more hygienic environment.

Abrasion Resistance: Resilience^{SR} provides additional wear properties and surface durability to any Vinyl or Faux Leather, thereby increasing the life of the material.

Resilience^{SR} is not visible, and does not affect the hand of the material. Resilience^{SR} is engineered to last, even after repeated cleaning and wear. Specify Resilience^{SR} for the most demanding healthcare and hospitality applications.
